

FLAT - Price list 2018

Tarasola Flat is a solution which was created especially for modern architecture. Keeping the right angles makes it fit into the modern architectural forms perfectly. Its construction comprises of mouldings made of extruded aluminium, foldable canopy made of fabric and systemic canopy. Standard canopy is made of Tech-protect fabric, which is a technical three-layer material produced especially for this kind of canopies. It is completely waterproof, overshadowing, protects the surface under the canopy from heating and UV. The roofing was designed in a way to enable the wedged-cut material to drain the water to one of the canopy's sides freely. Water is passed to the support profiles through the side guttering and then, drained off to the outside.

The most characteristic features of this construction are visual lightness and simplicity, whereas its structure is very solid and adjusted as well as resistant to the tough and changing weather conditions.

SPECIFICATION

The structure is made of extruded aluminum
Control of the electric motor in standard
Techprotect roof fabric in standard (extra charge as possibility for exchange for another type of material)
Possibility of powder coating in any RAL colour
Available in wall mounted and free-standing version
Modular connection option
Product resistant to wind power up to 120 km/h
Possibility of installing a systemic roof
Option of selecting additional equipment:

- lighting
- glazing
- screener blinds
- radiant heaters
- wind, solar and rain sensors

COLOURS

STRUCTURE

9010ST
Cream-white colour
similar to RAL9010
(in standard)

7016ST
Anthracite metallic colour
similar to RAL 7016
(in standard)

1013
Cream colour similar
to RAL1013
(in standard)

ADDITIONAL COLOURS

Any RAL colour
(surcharge) + 10%

Wood-like varnish
(surcharge) + 20%

WINDPROOF BEAMS

9016
White colour
(in standard)

1013
Cream colour
(in standard)

ADDITIONAL COLOURS

Any RAL colour
(surcharge) +5%

Lighting LED points

Lighting - LED strip
integrated with the gutter

FABRICS

Techprotect (in standard)

EXPANSION 1 (surcharge)

SUNWORKER CRISTAL (surcharge)

SOLTIS W 96 (surcharge)
